Disciplined Agile

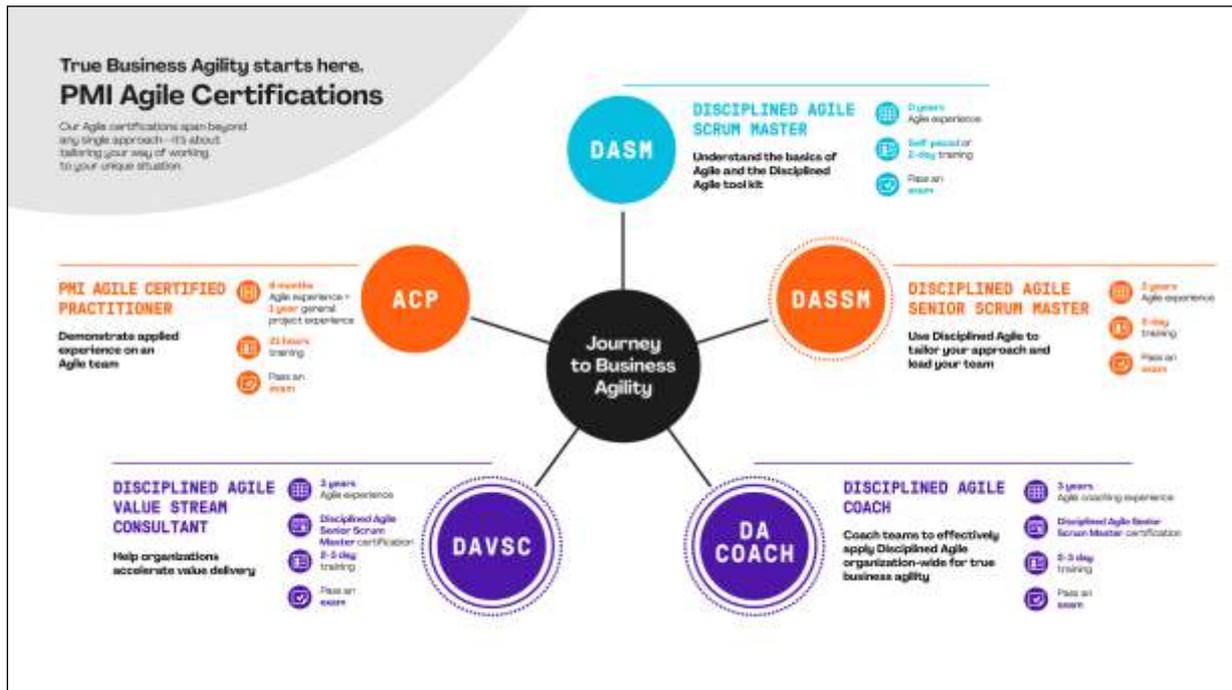

- DA toolkit is the world's only comprehensive agile body of knowledge (BOK) that provides straightforward and practical guidance to help individuals, teams and enterprises choose their **“Way of Working”** in a context-specific way
- Key principles of DA include customer centricity, being pragmatic rather than purist, providing a range of agile and lean options, applying context-based practices, and optimizing flow across the entire enterprise. Business agility is core to the value proposition of the Disciplined Agile
- Applying the DA toolkit allows organizations to customize any method or framework - such as traditional, Scrum, or SAFe – to drive outcomes that differentiate them from their competitors
- Teams can use any of the life cycles such as Agile Scrum, Lean, Continuous Delivery Agile, Continuous Delivery Lean, Lean start up, Program and DA FLEX. FLEX approach is an industry leading agile approach based on Lean-Thinking and patterns that improves an organization's ability to achieve business agility
- Teams can apply Guided Continuous Improvement (GCI) strategy to evolve their WoW to become more effective over time

Audience

Disciplined Agile Scrum Master (DASM) & Disciplined Agile Senior Scrum Master (DASSM) courses are for people who:

- Are new to agile - or -
- have taken some agile training in the past but may not have had the opportunity to apply what they've learned in practice - or -
- Wish to gain a detailed understanding of how agile works from the team to the enterprise level - or -
- Want to hone their existing Scrum Master skills

Certifications

Why DA Certifications?

Disciplined Agile promotes a principled, Shu-ha-ri strategy via five distinct designations.

We start by building a strong foundation (Shu - learn). As your knowledge deepens you progress to a stage where you can demonstrate a deeper understanding of the range of strategies available to you (Ha-reflect). Finally, once you've achieved a proficiency (Ri – transcend) of disciplined agile, you can extend and improve upon disciplined agile techniques by sharing your learnings with others.

Reasons for Attaining a Disciplined Agile Certification

- Increase your knowledge. DA certification requires a comprehensive understanding of Disciplined Agile Delivery, which in turn describes how all aspects of agile principles and practices fit together in an enterprise-class environment.
- Demonstrate your professionalism. DA certification indicates to employers your dedication to improving your knowledge and skills.
- Advance your career. As you demonstrate your increased knowledge base and leadership, DA certification can help you attain that new position or role.

Disciplined Agile Scrum Master (DASM) Certification

Disciplined Agile Scrum Master (DASM) - Course Description

Is your team treading water using waterfall? Do you feel trapped in an agile framework? Would you like to find solutions to the problems you've been wrestling with? Are you looking for ways to enhance your team's agility?
